

ENERGI™

5K+ Battery Pack

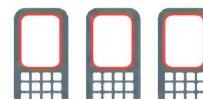

FEATURES

The ENERGI 5K+ battery pack is a powerful charger. It is slim, yet has enough juice to triple your phone's battery capacity. It uses battery cells certified at the highest level. This ensures users can use the product for years with minimal degradation and without worries about safety. The ENERGI 5K also has a built-in micro-USB AND Lightning arm, meaning you can leave your cables at home. Use the built-in arms to charge all your devices when you're on the go. You can even charge three devices at the same time! Never lose track of how much power you have left with the LED indicator.

*The battery cells in this product have been tested and certified to the following standards: CTIA - IEEE1725, UL 1642, UN 38.3
